

How to WIMP!

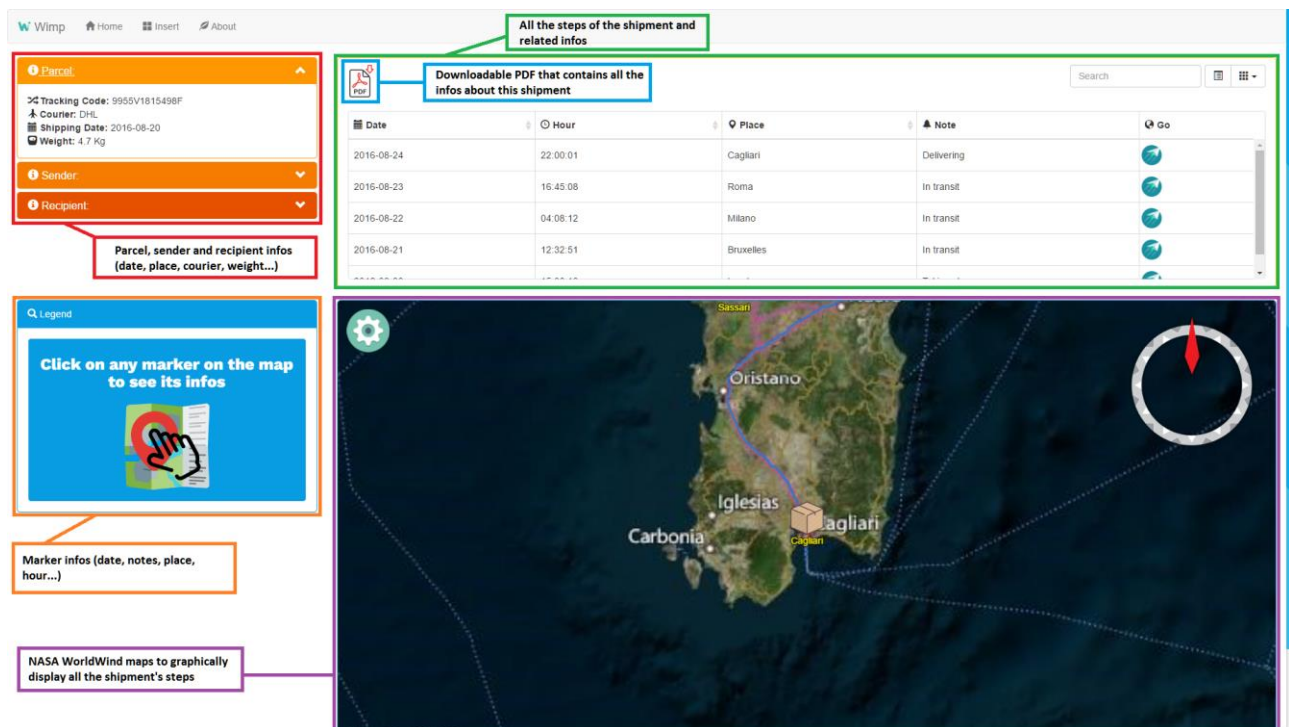

Step 1: Go to Wimp [home page](#)!

Step 2: Insert your tracking code in the "Tracking Code" search bar and press enter. (You can find some samples of codes in the info note below the search bar).

Step 3: Enjoy all your informations about the parcel: weight, courier, sender, recipient and much more!

If you need to know more about our project scroll this page. Here you can find our project's description, guide, video sample, screenshots, third party components, source code on GitHub that had been used and all members' name.
